

Planning & Concept Design

The beginning...

Our planning and concept design walks hand-in-hand With our mock-ups. Here's a perfect example of the decor on the mock table versus the final look after going through 4 meetings, Flower farm hunting, much collaboration and open communication with other suppliers and our venue. Have a look at our decor options for more mock-up information. We ensure to have your preferred colors and confirmation on all goods. We remind you of budget limits, timelines, professional opinions on alternatives, and more.
